Description

Tucked away on 2.58 peaceful, private acres, this residence offers something increasingly difficult to find in Naples: space to breathe, room to dream, and the freedom to make it entirely your own. Surrounded by lush natural beauty and with no HOA and no HOA fees, this spacious 3-bedroom plus den home beautifully combines privacy, comfort and possibility. Step inside and the sense of space continues. Tall ceilings, abundant natural light and generously proportioned rooms create an airy, welcoming atmosphere throughout. A newer A/C system adds comfort and peace of mind, while the freshly painted exterior gives the home a crisp, renewed appearance. At the heart of the home is a grand, bright kitchen designed for gathering. With both a substantial center island and an expansive breakfast bar, why choose when you can have both? Generous cabinetry and counter space make entertaining effortless, while the adjoining formal dining room provides the perfect setting for everything from intimate dinners to holiday celebrations. The thoughtfully designed split-bedroom floor plan creates wonderful privacy, with each bedroom offering an impressive sense of space and natural light. The oversized den adds exceptional flexibility and could easily serve as a home office, media room or generous fourth bedroom. The newly reimagined primary bathroom has the polished feel of a multi-million-dollar home, creating a beautiful private retreat. And then there is the land. With 2.58 acres, the possibilities extend far beyond the walls of the home. Envision a grand pool and

spa, expansive outdoor entertaining spaces, gardens or ponds, or explore the potential for an additional guest house... or perhaps even a future dream residence! Thoughtful upgrades bring modern convenience to this peaceful, country-like setting, including a whole-house reverse-osmosis system, smart Nest technology and Alexa-enabled features. The home is also equipped with solar panels and connected to the electrical grid, offering the benefits of solar energy today with the potential to expand the system in the future. Buyers interested in additional backup capability may explore compatible battery storage or backup-power options, building upon an energy solution already in place. And when the day winds down, the home's western exposure delivers one of Florida's simplest luxuries: spectacular sunsets. Pour your favorite drink, settle in and watch the sky put on a different show each evening. Private. Spacious. Peaceful. Smart. Free from HOA restrictions and filled with possibility, this isn't simply a home on 2.58 acres - it's an opportunity to create your own private Florida sanctuary.
